Cost

$22.00

Per person

Summer Pack Trip June 29th and 30th

- Dismals Canyon was designated a "National Natural Landmark" because of it's uncommon wild rugged character - largely the result of its geological history.
- A 1.5 mile hiking trail on the canyon floor follows the stream through sky-reaching boulders, past thundering waterfalls, into a secret world of mossy-green and pearl gray filled with ferns and giant trees. Its waterfalls, natural bridges, cliffs and boulders give this place a mysterious ambiance.
- Past twilight the canyon lights up with tiny bioluminescent creatures we call Dismalites. We will have a guided night tour to allow us to see these unique insects.
- This trip is not recommended for anyone under the the age of 6 due terrain and location.
